Journal of a Voyage from New York to Shanghae China in 2 Volumes

Vol. 2.

Thos R. Wheelock

Lat. Pole Last Islands Lat 1°01 S. Lon 116 55 E

Sights Feby 25th. at 2 P.M. Lon 116

89 days

Sunday March 1st 1863.

Quite tonight - when I left New York, that Times was so much that money amount to so little, and I hope that whoever reads this will make due allowance for the dull monotony of a sea voyage, where the same sights are seen day after day, without change; also for the inaccountable feeling of listlessness, viz, a natural do-nothing-ness-kind-of-a-feeling; which is the best illustration I can give of it, —— The sight of land was a happy relief, but after the first was lost sight of, more was looked for with greater anxiety than before, and so it goes, the more we see the more we want to see; this Sunday passes in any but a satisfactory way, I cannot get my mind sufficiently settled to read anything; so, as a result of course I walk around the decks, stumble, wishing for Shanghai; or anything to relieve the dull monotony.

Any person must naturally think that the Children must afford a great deal of amusement, making of which they are a constant source of annoyance, and as this I do not like, I have no control over them

90 days

There is a continual song of such words as
Dixie with gun ready; — Hold your tongue — Jim
has gin, with all the other household words
generally used towards spoiling grumpies; as
for reading even if we felt inclined words lend
of the question; they make such an howling noise.

The haze died away this morning, and although
we were in for a calm, but at 12 o'clock it came
up again —— Got a good observation today
Lat 3-25 S. Long 117-30 E, we are now steering
E by N, if we keep upon this course long, we
will see land tonight; but as the soundings
come up to E.N.E. & N.E by E. we will probably
go too far off to see it

Monday 2nd At 4 o'clock this morning sighted
Cape Mandhar, on the Island of Celebes, at 4.30, tacked
ship, as the wind was dead ahead, at 12 noon, tacked
ship again, and by 5 o'clock, we were within 5 miles
of the coast, but could see nothing distinctly, except a
couple of native boats, sailing down the shore; the
wind which has been very light all day, died away
entirely, and we have never seen it so calm, as it is
this evening, not a ripple on the water, and the heavy

swell, we always had on the open ocean, but which we have not felt for the last two weeks, on account of the influence of being constantly near land where it has not a chance to "get up"

We see many porpoises, are floating around us, but as yet we have not seen one whale, which is quite unusual, they are generally abundant among islands —

The land looks anything but pretty and very inhabitants to judge from the number of fires we see must be very few — We have had very good luck so far in this region, where we have been 7 days from the last land we saw, for I cannot see how making a direct course, & yesterday, on Saturday May 3-19th of me only ride of a knot for 24 hrs and came across this, & ride legs I have seen before for a week

Sunday 5th At 9 o'clock this A.M. a heavy squall struck us, which gave us a little hope, as it we had a head wind for 3 days, but at 10 o'clock it had died away, so we are becalmed again, perhaps for a few days, but I do

intercept the mail, though it is so far not rec'd. I don't know what it may be made the Cause, without any, — saw a large whale. Read Isaiah 60 and 61 Chap. It was still the use of the fishing boats at home, saying, but waiting for the fast day — Saw a large Fish that was floating by us to day, caught somewhere in the lower part of the Ark, the sailors saying a rope — & any Lading in board. It seems that came just at the right time, as Christ reading a Reading from [illegible] almost a day, Time seemingly, that was attacking [illegible] Saw two numbers of Snake Skills attached to it, with small claws, evidently working in and out, [illegible] thereon a bottle of salt water but do not think that was live — Lat. 2.24 [illegible] 55 Yards Saw fishes at that out Stroke and he Saw [illegible] — Fishing about 4 P.M. Calm again this morning at 12 o'clock got a magnificent Dog, which [illegible] the Sailors did away, but [illegible] the [illegible] was [illegible] Sun [illegible] after dark; — The Sun is about as [illegible] [illegible] more than three of that was [illegible] —

Thus we had left Port for 1 day & 20 such as
-ordinary stuff — This bay is quite a [illegible]
[illegible] and I intend to call it [illegible], in
honour of Capt. Cook, who was the
first Europ. that ever visited here, also it did blow
[illegible] a mighty bit of it is hailed with delight.

Lat. by observation 8 Deg — The land is also made
Cloudy Bay, & Cape Farewell in fact I am in expectation
for the Ships now we daily reckon it ——

Our Sick have [illegible] supplied with fresh
provisions & [illegible] what [illegible] Mr. Cook
Island, Lord Mc Cartney intends it will be Captain —
by as a guest —— The proceedings in Europe
have [illegible] [illegible], & [illegible] a Peace between
Holland & [illegible] the Capt. has come, and if
[illegible] [illegible] he will be [illegible] by that
[illegible] [illegible], if this [illegible] no doubt —
[illegible] [illegible] [illegible] [illegible] [illegible] [illegible]
[illegible], & his family with [illegible] and
the [illegible] arrangement of [illegible] [illegible] [illegible]
made to the Ports that [illegible] at Batavia,
& [illegible] Thou I venture to say, that there
is not a Capt in the China Seas that [illegible]

about his first Speech to occupy, in order to Invest[igate]
Chaos, that were for the use of Passengers. But
there is done gratuitously, and as there is only three
Chairs for Cabin and three occupied by the
Capt & Mate & Captain. It is Thought, one
thing is certain, the owners of the Ship, nor Steward
which Agent we had had two Pens made
Thursday 5th At 10 o'clock last night a heavy fall
of Rain which increased by 2 am, to quite a
gale but how accomplish it was, can only be judged
by those who are anxious to ship the Equalis without
the usual up to 30 days Calms that are almost
certain to be met with, but which so far we have
happily escaped, at 7 o'clock this morning we made
Point Rameoongan, the Eastern Point of Borneo
and by 8 o'clock PM, were Clear of the Straits of
Macassar, with quite a Breeze summer from
head, and we are now going along Head Reefs at
about 6 Knots, if it Please God to give us more
Wind we make make a good Passage to Java
Head. — At 12 o'clock we were in 1° 19' South Lat —
119° Long E°

Thursday 6th This land was beautiful, but my

reminds us of the fruit we used to eat, and
we intend to. Thanks to our good Lord for
keeping us in health while as good as a doctor
and as he has such an interest in what we
are doing in England that

The boys are getting fat on fresh anything is
rain, not the rains, and Christ is lonely —

A small langur came on today to day, and finding
itself on the train race, made its flight last night
about 8 o'clock

During the night, in the trains radiator
is coming away, the Emmanuel, Faithful and Fa-
ithful and Dog in upon them. From a
[illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible]

94 days

the hull is a dirty red our deck has not the comforts
of home the comforts of home

The Islands presents a very fine, fertile appear-
ance, we hope at some future time, when Gradually
settling down to tea; and as the trees, were
in full blossom, looked very beautiful — Perhaps they
were but a sad reality when reaching some bleak or
barren part of Cape Horn, — however time will
show us it — the same might be said of the
other Islands we have seen

I do not think we will see land again until we reach
the Low Islands for north of us now but
no more trees; Our life is regaining its accus-
tomed monotony, nothing is on the ocean save
in one instance, one ship, which passed us some
days, steering where we are

Friday 6th Calm all night, and today lots Breeze
after a succession of squalls with rain sprung up,
during which along heavily for a short time, but soon
left off again, we are now Quarter
on our port tack, a fair breeze, for
which we shall have many days ere we
arrive, we are not a fast sailer, heading as

Friday (3)

Fine days — We have had a good deal of drift ice to day, we have not seen this morning but a little as we are coming more to the land, it is to be a fine Sunday tonight in the drift, all the drift seems to be together, which shows that the currents meet at that place

Lat by account observation today 49 deg 27 min Long by chronometer 2-02 South last 120° 0' 55 min 12 sec

The rain and hail comes down with a vengeance almost in a solid sheet, effectually putting out any sea that may be running.

Saw a school of porpoises this morning — Yesterday 12th Rain all night and to day till 12 o'clock, when a beautiful day, and so much drift ice floating as along head to day. Of course rain came with it, which keeps us dull —

Saw an enormous school of porpoises to day there must have been at least 100, swimming along at about 20 knots per hour, making a good rate — Lat by Chronometer today Lat 52 23 N, 125 4 W. At 1 o'clock, he observed from W.C.S.T. where he has been for the last 4 days, it is to the

9 days

Good to run for a Land" at the
same time, if this keeps on the Commander
may be up days or sooner.

There was a general Cheer on again it
as -

Friday 5th A beautiful day all day at 2 PM,
sighted the Pescadores group of Islands, Lat 23° 30' N. Lon 119°
at the time we sighted them, there was a good haze, with
a prospect of getting through them, but at 8 o'clock
the mist came on and dog chag, which obliging us
to lay to, any on all night, (This is Monday that I am writing)
and in the morning it was a dead calm, we got no
good rid of the Islands, as it was dark when we
were near them

Monday 9th Calm all day, Came on misty
on such time 8 o'clock this a.m., saw the first shark
any where to day, the shark was a pretty large fellow
but not one of the largest kind -

Read up the Log book last night, as there going
about the time at sea, which consists of
Landing, there any a lot of other things to read
and see, not, the question is, when did they get
the Land in, in the Capt log as when we

Our Captain & Chief Officer have not any to boast of, the Dogs English might come, and once there into the Kennels Cave, to me naturally, Conclude that the Barking belong to her, & we can't prove that they do, & into fear the Eyes of night the Cave Dog, anyway & there Chang on roaring we are unable to Think, we intend & request some Straight-forlen —

Unfortunately for the rest, that has the Journals here, now done, to day, a man to work & ran it again, & fortunately we are now Clear Island so that we are at ease again & that happens at night of Dog, we might have been sinking

Our observation today shows that we have not made 41 miles since yesterday

Wednesday 10th — We could not expect a very light one from the N. E. which this Latter part, and stays hours & blows again, though when we have got there Dam afraid to think, we have not made good northing for the last 24 hours, Nothing not we at all during the more Calmness here for a week or two, I do intend that have the Leaves [illegible]

101 days

were our feathers until a Trifle of those made ad-
vantageous allowances, for a poor devil who is mes-
ger anything to be out of this scrape, & by the mut-
tering Sneak, Indeed Swear something and Call-
* Up —

Got an observation today Lat 6 53 S. Lg. 122 03 E.

Thursday 12th It has never been so calm, as it
was this morning, not a ripple to the Keel, and not
a breath of wind, which made it oft rest most, but,
the water, was a beautiful green color which I always
do, when near land, so that we could see the Bottom
in great abundance at a very great depth, the Calm
Continued till 12 o'clock, when a little breeze sprung
up, fortunately in the wrong direction (as we
had as it might have been, we have made, a whole
30 miles, during the last 24 hours, which is a good
but I can face direct

I think that if the men became Lee for a Couple
of months, I might do more than I cannot say
I am not feeling a Something & must take away
all merger Cannot say more, than anything re-
sembling a Sick Gannon is to be the first
Game that is thrown up in perfect disgust —

192 days.

[illegible] would [illegible] make [illegible] a little more pleasant [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

A mosquito [illegible] ahead of us heading in the same direction, we eventually [illegible] over to the wrong channel & so as we are gaining upon him rapidly, though we are probably [illegible] [illegible] [illegible] [illegible]

Friday 27th Expended very [illegible] last night from the wrong direction around [illegible] we could make a log [illegible] from [illegible] [illegible] [illegible] [illegible] [illegible]

103 days

a good day, which takes away half the discomforts of having to dress for the last four days. —

We are now moving slowly in a NE direction, our dinner to-day consisted of Bean Soup, about 3/4 of a Pint, and some bits of Pie crusts for Thursday and Crackers, which were refused, as they were not what we ordered. Can't drink Tea for Thursday as we have no Milk & don't like it, and cannot drink the water here as scandalous, when we could have got water at any of the Islands we had called at, the only consolation we have is, that there is no danger of any of us getting Fevers, as in every part of the world, (it is as good as a Doctor to us) —

The Ship we saw yesterday, I have just discovered a good distance astern of us, dealing up with us; they have not Letters now —

Saturday 18th Morning Rainy a little wet myself as I gave us a good Northerly course, but of course the wind died away during the night and we have been becalmed all day again, having made only 5 miles in the last 24 hours.

To day the dinner was awful, Cod fish & Potatoes, nothing else but one spoon of tea, a cup of tea was or-

quarter, & was politely told that he had also made
us a Chinese call, so of course had to go without
(as Chinese call has been done)

Lat 9 05 S. Long 122-36 E ——

Monday 15th Calm & sultry not a breath of wind
all day, sent a man aloft, to look out for a light
for the night, but saw nothing, we are under the
Lee of the Island Timor Laut —

Lights & Fires, a heap of us this morning
as it is the first proper day we have had for
some time, after a stormy time, got a
fine observation, which shows us, we are not
within 60 miles, it seems rather strange that we have
been a day, under the Lee of an Island —

At 4 am made the decks of Logs and Lumber
amongst the pigs of which all day we have not
seen enough to judge of it, the Island is not
25 or 30 miles from us —

We actually had Cyclone Pigs for dinner today, quite
a luxury for us, pork is made quite a treat —
Sent with the Long Boat

Lat 9 35 S. Long 122-6 E.

185 days

Monday 16th Pleasant Cabin, only made 11 miles the last 24 hours, enough to drive any person mad, and the absence of any water is so objectionable, but I so pleased, no wonder, I prefer to remain the time staying in the cabin than to be out of the water. — Tom says he made yesterday of course stayed in the same place here, went & got such a load of wood, which is burning away beautifully, but it will not last long; there is a strong current against us which makes it very unpleasant for, I may as well as happens, as we have to make it both in the same place twice over, — While I am writing this, they are having a jolly time, with their midnight supper, it is laughable to see the preparations, they finished the last one, then stamped the peas from the cabin to the dining room, (on call officering as usual), then when all is right they light the lamp again and "Bill" is called. Fortunately there are no rocks at the last, whatever they do, it appears in the mail, consequently we can make the most, and enjoy it. — Tom says the Captain is going to land to-day, he says they have none on board, not a drop, they have ale, but, only they have lemonade with them, I packed mine in the refrigerator & call the mate, like a last moment

106 days

as it he has gone in his cuphin nor any body else
the decks awash. D.r Mc Lachlan returns at 1 o'clock.

Sunday 5th Had a good day and Lat observation this
morning, which has given us a beautiful view, at
10 am, made the island of Tamara, when we sailed
the windward side of it, the wind dies away again
and continues calm till 2 o'clock, when we got again
a breath; — The island does not look very fertile,
the sun shone, revealing ridge upon ridge of mountains
of which we saw 3 ranges, and the quantities of fires
burning upon the hills, we have seen very few for 2 days,
only four, and those very close to the shore,

One of the villages (the largest) is named Antigua
it seems to contain some 1000 huts, some of the
built of stone & shingle roofs, there was also a fine
church near the town; — There are any quantity
of cocoa nut trees which is very encouraging, as we
are running short of them, this don't mend
lower a boat if we are starving

D.r Hall asked for a cup of tea, at dinner
time; the stewards said he was forbidden giving him
any but the ladies or women as he was ordered by
the doctor; In some cases that will not refer, —

10th day

Soon after that having it in rather thick we came home with the idea, that it is as good as a dozen times, he did seem to see the force of the argument, when you consider the dense Blanket Board with Cayenne pudding, it will not be surprising that a cup of tea may be required — I don't know but think that it calls for a Stronger rather a very Coarse, which will suit certainly me — — I feel quite relieved now that we have a Brig, and yesterday I really felt sick at heart, I think that we might probably be breaking up a boat, as there is no idea of what a calm is, until you experience the dire reality; and then it is with a vengeance for the Brig the Brigue was out of sight last night — which is, that we sat pretty fair with a light breeze —

They have just called me to see a very pretty little Village we are just passing; — it is a beautiful little place, all the houses look, white washed, it actually looks inhabitable for a Christian, and I suppose if a Sailor had come ashore he would like it very much, it would be a nice rat place to live; — A Spanish Brig came among a Pond of land Birds as quite close to us, he probably belongs to Manilla, — Wind is dying out again; in for a calm I suppose — Lat 10-40 N, Long 121-55 E.

[illegible] days

Thursday 15th Came in round the Island
where a Whale was seen, stood off from the Ship,
and gave us a merry chase; the Master in a
boat struck, but the Whale sounded, & got
clear off with the Iron, and Line, & Buoy
& Cask. Sailed round the Island, & came to
anchor in Hanover Bay, & Hauled the Seine
but got nothing. Weighed & came round
to Port Praya, & anchored in 7 fathom
water, & moored with the Best Bower
& Stream Anchor. Got off Water, &
Stowed it away. Got off Fresh Beef
& Vegetables, & Sailed from Port Praya
Bay, & Island of St Jago, bound to the
Coast of Brazil. Fresh Gales & Clear
Weather. Saw a Sail to the Southward
at 4 PM. Made all Sail in Chase, &
at 5 PM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of Brazil
for Sperm Whales. Spoke with her
Captain, & Exchanged Signals. Saw
a Sail to the Southward at 6 PM.
Made all Sail in Chase, & at 7 PM.
spoke her, she proved to be the Ship
Hope, Capt. Hussey, from Nantucket,
bound to the Coast of Brazil for Sperm
Whales. Spoke with her Captain, &
Exchanged Signals. Saw a Sail to the
Southward at 8 PM. Made all Sail
in Chase, & at 9 PM. spoke her, she
proved to be the Ship Hope, Capt.
Hussey, from Nantucket, bound to the
Coast of Brazil for Sperm Whales.
Spoke with her Captain, & Exchanged
Signals. Saw a Sail to the Southward
at 10 PM. Made all Sail in Chase,
& at 11 PM. spoke her, she proved
to be the Ship Hope, Capt. Hussey,
from Nantucket, bound to the Coast
of Brazil for Sperm Whales. Spoke
with her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 12
PM. Made all Sail in Chase, & at
1 AM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 2
AM. Made all Sail in Chase, & at
3 AM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 4
AM. Made all Sail in Chase, & at
5 AM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 6
AM. Made all Sail in Chase, & at
7 AM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 8
AM. Made all Sail in Chase, & at
9 AM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 10
AM. Made all Sail in Chase, & at
11 AM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 12
PM. Made all Sail in Chase, & at
1 PM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 2
PM. Made all Sail in Chase, & at
3 PM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.

Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with
her Captain, & Exchanged Signals.
Saw a Sail to the Southward at 10
PM. Made all Sail in Chase, & at
11 PM. spoke her, she proved to be
the Ship Hope, Capt. Hussey, from
Nantucket, bound to the Coast of
Brazil for Sperm Whales. Spoke with

the Ocean Evening, but that he only have run that
distance or not, at least there are no Reefs standing
in our Track in the South, the Evening have 2 Times an
Hour all hands the Watch to Lay down, of the man
at the Head of the Hammock, he is a big Chinaman, my
Watch he had got the Idea of being Cooped from the
rest Chinamen during last Night, but he has
lost by not running a good 100 miles, and I will save
him right if he is Recalmed to Morrow Morning, I do not
think that a thing gracious Kind but Tuesday Noon
night — We have now had no fresh meat on the table
for six days, we had Potatoes one or two days, two days we
had nothing but Macaroni and rock with pea —
Quantities of Porpoises have been playing around
us, most of the Morning, Hundreds there must
be in the Ocean to be a boy in the School, and
some Sails after him — Sighted another Sailing
Ship today steering South
I have no doubt but of his going up the Chinese Sea,
to get an Cargo for Calcutta Cargo and then
Sail to Melbourne a Couple of Hundred Miles of the Coast
of China then round the Horn to Liverpool, a
long way, that full and by on each Tack —

[illegible] [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible]

108 days 109 days

on the other side of the passage, the island is Busuanga, just to the northward of Palawan.

The Datu then informed me that morning, when Mr. Hay was taking a cast of cash with a fine hook, that he was forbidden to do it by them, adding at the same time that he was willing to do anything he could, but they may not like any of the remaining articles of trade in the vessel; and that should in the least be thought forbidden to do it, but that is not to say he is unwilling to do it, but we are not near enough, he wants to get on the right side of the passengers, in the hope of being "lifted" at the end of the voyage. "Can not see" is still in daylight, and when, if that is his design.

By my sighting I got a very light trace, about the Entrance, that is not satisfactory, so waiting again.

Hope this will be my remains that means at eight of the morning, the land was not visible.

Lat 12-15 N. Long 120-49 E, ___ 80 miles run with a light breeze, course S.E. ___

Friday 20th Not a breath of wind during the morning, at 3 o'clock the afternoon we got a steady breeze from the N.W., which has given us quite a start

109 days

away we have just sighted the Azores Coast with a black cone of Pico, [illegible] but we are [illegible] to land. For [illegible] we are to have [illegible] to night again, though probably that will be our [illegible] in the Pleasant State of Azores.

I am unable to say which edge of the range of pictures we first at 12 o'clock, [illegible] the time overtook us [illegible] a short time after the range appeared on the distance of course I was late at the [illegible] time —

But what a tea we had last night, just to think of it "Bovril Toast" "an asbestos" one "Spice" at that, [illegible] were roasting, and they had none — [illegible] and [illegible] them for the 12 o'clock supper

There is no getting over the fact, that they are putting themselves to a great deal of bother to [illegible] us, ever since we left Southampton there has been a [illegible] hanging on the davits, where we used to get out of the shade. Each day that we [illegible] of the Line, Chenery answering the [illegible], [illegible] Returning our toast, and drinking [illegible] a Happy Voyage, but unfortunately, for them, they will be [illegible] more than ever with us, for we do [illegible] down in

end of the Cabin, when they congregate altogether
It is also a remarkable fact, from the noise there always
being a great deal of smoke, from their fires, that
to-day not a Swan has been heard

The Boy John informs us in addition to yesterdays
Book of Diplomacy, that when he comes said Duke to the
room, that the Steward knocks him down, and if he does
not, he does the same, he that as it was the rule has
not affronted us yet. He is a duck young cricket and
the steward is even more than John —

Big may of ranks in great Piacara pudding to-day
and as we only get it four times a week, it was of
course quite a treat, but the "grubs" could not com-
pletely conceal their extreme toughness, consequently did
not touch it —

We have made the estimate run of 17 miles in
24 hours, Lat 12-25 N. Long 120-43, hauled to north
and steered the whole night

Observed at 2 P.M. to keep two points of last night
and Tacked. The Steam boy having died away about
6 P.M., and at 12-30 that day the mast died out
[illegible] Chain pittons again, the last night
[illegible] Steward, Read Magellan and the Cricket

Flapjacks, Sausage, and Coffee. At time they were
done, Mrs Smith, Aggie & Plum Cake, which happened
to be ours, and brought it down to the Cabin where we
had our breakfast, and a pretty good time; afterwards we
went on deck for a while when being on, we were
under the necessity of having a Pocket Knife, and a piece
of Cake for a plate, as we only had those sort of
things; we did not neglect the Cup, but used
that, and by dint of the method of eating boil-
ed Potatoes as being most agreeable to us, and a good night
rest. — The morning we made the welkin ring of Hurra
for, as Colin Campbell & the mate boast both
from Shaw's Pool Cabin, which contains the Pool &
Steam Engine which brought us up to
Dawson, and which is the last land to be seen for nine
hours, then it will be much higher than now
although we are going to be 20 or 30 days yet — we
certainly be off the state of affairs don't change materially
from 60 Mile from Dawson to Stewart

We had a good dinner again Pea, Salt Pork
Potatoes, and Cake, today Mrs Smith made us some
of her Bread, and a pigs, and cake, of the best

happened to the Vermonkore man during the early part
of the year we do

Last evening we had a Big Lunar, & E. this morning
we had a Bad thing Mr, made a date but we made
it a good many days, both to Mr. the Comedy
of Love &c and Football. Shame to, we will be in
the matter of Miranda Simms Broke and Mr. Mr
is 19 Balls & one & 9 runs & 1 Over

Mar observation today Fat 13-25 Long 119-43. Distance
run 200 Miles

For the last month or two Mr. Mr. has been, a
bit Irritable, for the last two or three weeks he
has decidedly if the fact of our being nearly melted
and irritant mind can be construed into such a thing, for
the wind is that both we have had, have been from the
direct Quarter of the Compass

Tuesday the Morning day, after he had gone this
and to come we all broke, he said he had been
dreaming that he gave it to the gentleman — Lucky —

Mr. Mr. has been studying Mr, during the day and
during the evening, at this rate we will
find a Quarter here, and Mr. Mr. will drink that
Quarter with one or two drinks

11 Days

Wed Dec 22nd Good bye all day the 10 o'clock
train we were across and had to do duty, about
1 o'clock Tim, got another kill to skin, that morning
as the snow advances, we again to get big
11 o'clock, hope Indians continue all night

Sighted the Black of Lagoon Laramie this morning
a head, about 50 miles distant, very indistinct

This has been the best days run, we have run
in 30 days, having made 12 miles, where the distance
running from 60 to 90 per day

We are now fairly in the Black Hills, with a very
heavy South Running, which runs Quite from the south
the trip has been quiet so long, I was delighted to find
the Indians, and know, we were in the Black Hills again
where we had a chance of getting Scalps, and Ponies
minds

All day has been packing as usual. Very dull and a
great deal of Snowing about here, this makes it the
day, that a letter get in a regular train of thought,
for instance thinking what they are doing at
home &c —

Camped about 4 miles Cold night Lay 15°

Monday 30th Wind ice remaining that Heat has left us this morning for the last 40 nights

The morning the Capt came down in the Cabin and ordered any young Man to make a fire, he rose up in the after Cabin swearing it is a d—d mad-mad, says if he knew who spoke that one, he might eat his d—d heart, — he then came down in the room again and asked had who spoke that down, H, said he knew nothing of it, Capt then asked him if his Uncle was not down in the room for him, and told him to go to his room, he said he might not go, Capt said he might go to, & bid him his last letter and Capt then said he was of him to pull him off of course there was a — [illegible] H telling him not to put his hands on him again which he did not, in the scuffle H, got a few bruises on his face and arms, Capt then asked him what he did accuse he man, H, said it was not all Capt intended for it, he took it, H, told him he took it upbraiding it to be kept clean, and not take a peg for it, telling him at the same time, that it was — [illegible] my mind to send him off the ship after having him up these two nights, & Capt then went to his

[illegible]
room, saying he should go to bed — but my father
& the doctor, that he had left him made a very
large mistake, and ordered himself into a very large fly,
in order to go much faster, for my father thought he had
nothing, for it grew as much finer hours of him,
than we had before —

There is no mistaking the reasons for his pulling that
[illegible] he told it to [illegible] and Dr McCulloch
in the middle of Nate, as he carried her when she got
tired, all wrapped in the morning —

Had it dawned a little sooner, my father would
[illegible] again to make the letter, his mind is not [illegible]
in, if I had a pig, I would not let him stay in mine
a clear hole, as his room is.

Evening the day Dr McCulloch went to [illegible]
and beg her, that she might be told [illegible]
should man, only whereas, what she said, was [illegible]
that he kept was a gentleman, and that Nat was a
scoundrel, and would grow, if he were in [illegible], and
that he ought to have his neck stretched, with a long
[illegible] of other abuse [illegible] to [illegible] Dr McCulloch
[illegible] that the stronger he argued his [illegible]

Comes we can [illegible] [illegible] [illegible] [illegible]

[illegible] was a good [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible]
had not [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible]
[illegible]

It is positively most discouraging to think we have run so far and not made an inch towards our destination having a thousand miles, that is distance run, towards it, we only get somewhere out of sight back — Such stuff does anywhere, that should not, when "Just heard of the Battle of the Nile", however shall indulge in such nonsense more, and conclude with a Toast and Bumper, "Better luck next time" & hope if it can be more than it is

Got an observation today Lat 19-29 — Long 119-37 — Have run 20 miles, in the wrong direction; if only was the other way, should get much easier in my mind — We are within a few hundreds of mile, or less, from Anjer —

— Thursday 31st Have Serpentes, at six o'clock this morning mizzy disappear, leaving a flat calm, not the smallest point of Land in sight with a heavy and oppressing — It is quite discouraging, God knows I have no right to complain at the rate, I do not think this Calm will last very long, at all events —

Last night at twelve o'clock thunder came down in the East and big Heavy Squall, which for him to go to his — and A. only from it but the Capt. he would not —

Sunday

Capt Thin came down, bringing Smith, and Dr Bay
mouth with him. Capt asked H, if he was going to
his room, H. said he would not without a reason. —
Capt then took hold of the bag, but H. gave him a kick in
the head, which made him let go of him. Bayne
would not touch him — H. then sat up on the sofa,
Capt asked him if he was going to his room, H. said
he would not without a reason, at the same time at-
tempting to come to my room, Capt then struck
him and they both fell down. Seaman was standing
in the door to keep against each instrument, when
Capt and Capt got up, Hall went into Seamans room
Capt asked Seaman, if he wanted him, H. said he did
not, and ordered him to come in his room, and take him.
Hall then called all to witness the treatment he had
received. Capt then went up, saying to Hall that
that he had laid hands on him —

While the above performance was going on I
was much alarmed, as I did not hear any of it distinctly,
the next thing I remember, is that the most distinct
words I heard, was Seaman pleading against the
treatment; after Hall had gone into Seamans room

12 days

The pump got out of key and was going out into the Cabin but happened to see the Steward of that - I immediately had him pumped out again, and put my pants on, and by that time the fuss was ended -

I can imagine that I came to think of all the ways this already. There was an awful row, but I did not know anything of it, as I have got the name of Lucky Jack, I cannot keep the Captain - Capt Lucas something about disobeying his authority; I suppose the case is he has no authority on board the Ship whatever - after he had finished the row about the Steward, & Negro cook, asking him if he dare disobey his orders &c, told him he would in regard to the Negro, that he must not touch one of them, only if he would be found in error before he would do it -

Next time came my turn and first of the night. Both men & Steward in a heap -

Now for my turning the fun -

The Captain came down, and took the dirk off the Steward, and has not had it on yet, and may either use it, but I hardly think he will go that far - if he does he will be much to against him

120 days

Monday 5th — A magnificent breeze all night & most of the day. Reached, when it began to haul round aft and go light, but we have the same good 5 knots hour. — Got latitude & longitude at noon. Lat 12° 55 S, Long 122° 55 E, distance run 120 miles, 111 miles due west, & 55 miles south. Took fresh provisions from the Natalie.

I hear the order "Le grand voile" to be taken in, & in a hurry more than again, — I do hope it will not blow hard as I had so much and fine weather again, but then again, what's the use of grumbling, it turns that it is no good to last long, I must anticipate trouble

A death occurred on board yesterday at twelve o'clock noon, Mr Ng, squeezing his last squeal, as that was one of his duties daily, during the late calm. We have many of that kind of Ng to keep the pilot, and give the ladies, that we have with us, some employment —

Today we had a fine gale down, in fact the best one, we have had since we have been in many a day, — It reminds that we cannot have all the good things at once

126 days

Monday 6th Pleasant day and calm almost all day. At 5.30 got a light air from the S.E. which continued very gently till 8 o'clock, then began to grow light and by 9 o'clock the morning was calm again at 11 o'clock got a small breeze from the S & S.E. which has continued all the day, splendidly —

At 8 o'clock saw a sail astern and at 10 she was about 4 miles from us, we then had on a wind with the wind N.W. Now this is what we must have a good deal of to get to the eastward, at 10 o'clock he was right astern of us, at 11 he had hauled his wind on the starboard tack, at noon he was gaining upon us, at 3 o'clock, when he came to about his course more to the eastward probably having to pass close to the Eastern Reefs about 4 miles off the deck. At sunset he was out of sight from the deck. Lat by Account 23-37 S Long 123 distance in 100 miles

Last night a dark cloud in the N.W. was very fast, & for an hour & a half it was —

Friday 15th During last night we had two
showers, but this morning we got headway from
N. N. E. at 10 am sighting the Island of
part of the land of China, and consequently were
much elated, at the prospect of getting a pilot to
day, but at 12 o'clock the wind died away altogether
leaving another flat calm, which again made
our hopes fall very much down, and during to day at 5 pm, got another slight
breeze, but at 10 o'clock, calm set in, we Lay Lying
drifting about 30 miles distant, so supposed, we with foot
about which time we lose the breeze again

It does seem most discouraging to think we
are so near and the force Tide or Current
against us, for if there was a good breeze, the boat
are quite looking craft with two eyes on the bow
for to see it way, as the Chinese say, my re-
mark is not understood; — Saw a ship in
the distance to the northward during night

Lat. Observation today by Day & Sturm, &c.
made on Sat 30, 23° Lon 122-4°

Pop. Kingdom Chiefs have been a
bad influence all the voyage, when
I date on Sun. glass, & look at anything, the
always want them, which we take no
notice of, & the boys, finding our gaze of
such no use, & which the women have
way to be moved & them, the Chief & myself
excepted, are rather envious to see the Chiefs
wife & my Sea Lion & I have not seen for
so long. It is rather strange, that after
6 months of such celibacy, the thought just flash
out, the Indians & men saw a woman, with
as little regard as if nothing, the signs & the
wife & the boy, women and kids, so altogether
from thoroughly disgusted, with her, any her with
land, if we were to be here another month
I really don't see we may, the rest of stores, at
the present table, the Chiefs are always trying
to get, but tonight, was best, as I have the
discovery everything at the Chiefs house
to light it so lay & Chiefs wife more, interest

Monday 11th Tacking ship last night at 8 o'clock we cast the L. Tacking ship Laying to till the morning. And steered nigh the South Saddle Islands, were quite up with them at 2 o'clock precisely, the Pilot left us and a new hand a new welcome young, came on board, the name of Jason, A fine handsome thing, of the whale Ship Augusta bound to Nantucket bigbeads, at the Southward of us within 20 or 30 miles of Kangaroo Island

At the approaching the Saddle, the water changed from a light green color to a yellowish muddy color, which has continued thus far,

The Saddle group, are very barren things and look, as if they were even subject to drought,

At 1 o'clock spoke the East "Star of Peace" from whale ship, Captain Hathaway of Fairhaven, bound to the Cape of Good Hope, we left them in the same direction, and same distance as before,

At 6 o'clock we came to anchor off the Light-House, to wait here the morning, and to take with us, the Pilot, who was to bring us into the harbour of Port Adelaide

Aboard

The Pilot brought the Shanghai Pilot
at 2 pm 2-, the Pilot also had the Chart —
of the Channels so that Capt could steer
on that score, he also gave the latest information
in regard to their friends —

The Barque, which we met yesterday has
got into Anchor alongside Us —

Two several fishing boats to day, one
close to us

I attempt to describe the scenery in
words I cannot do so, but I will try much
I know but the River might have been
any, any River I have ever seen, and
can get enough to eat and but without fear of
getting myself, with filth

It is amusing to see the change in the Chinese
Pilot in exchange of the Pilot cutter,
he sang in time for dinner, which he was not
to, as we ate the good things at once, —

The Pilot is a Gentleman, very kind very and
to day, as to be - of and to him, is pure kindness
to me — Mr Rose [illegible] —
very Consul in Shanghai, Take and serve —

132 days

Monday 12th Got under way this morning at
6 o'clock the first rank of the corps at about
7 o'clock the land is in sight, and we had a little,
but it was nothing to get excited over, as the vessels,

We attempted, what a number of boats of the
kinds are sailing about, which unknown to us
we got up the river, at Norfolk, precisely the same
was brought, and before we came to anchor, a
Confederate boat came alongside to us and at
the request of the Captain, provisions, &c Some
engaged him to carry us down to Hampton a distance
of 12 miles at 3 o'clock we were off and were duly
[illegible] as the vessels could not ride,
the Capt in a word got a chain in the radius
we, we all got off safely, and a [illegible] came
alongside of [illegible] the Adm Dahlgren, the Com-
mander of [illegible] boat, crowding around us in perfect
amazement, which left us very looking after our things,
for which anything we touches their fingers, you may
say [illegible] —

When we had all landed Dr Schmidt went to
the [illegible] engine after the English, and we
[illegible] shortly [illegible] had been [illegible]

Mr Randall has of course much feeling at the
loss of some of his property, — I think it is the saddest
thing I have known for a long time. — The ca-
se is to be heard in Admiralty this morning and the Steam-
ship Company are trying to get the case
to the Admiralty Court — I have not had the
pleasure of seeing Mr Randall, not having a cent with me
but the Am. Consul has given me an order to get
some on board, & I expect to start to-
morrow at 8 o'clock — I will return in a few days —

Affairs are very serious here just now — The
Archbishop of Paris and Mr Bonjean and 4 others
of course they are in prison, & are to be tried
through Courts martial —

I am glad enough to get a decent bed to sleep
on once more, and have a good wash &

It was quite dark when we arrived in Lon-
don, and on the approach to the city, through
the number of lights in the suburbs there
was a most magnificent [illegible]

List of Numbers of Seeds — May 1873.
